Croner-i Audit

Croner-i audit products uniquely combine a range of practical tools and checklists with supporting guidance to allow you to comply with all the complex audit and accounting requirements under UK GAAP, company law and IFRS in the most cost-efficient manner. Our focus on constantly updating the tools and commentary ensures you comply with the latest auditing and accounting standards, freeing up time to add value to your client relationships.

Every day, thousands of audit professionals use our information service to enhance their understanding and use of available information. Our deep domain experience covers all aspects of auditing so you can be sure that we've considered every angle.

Our Croner-i online reference services combine accurate, up to the minute information with expert analysis and incisive commentary, all written with as much attention to clarity as accuracy. After all, you can read the original regulations for yourself – our job is to help you apply them correctly.

Our audit packages include detailed commentary and guidance in addition access to full legislation and helpful time-saving tools:

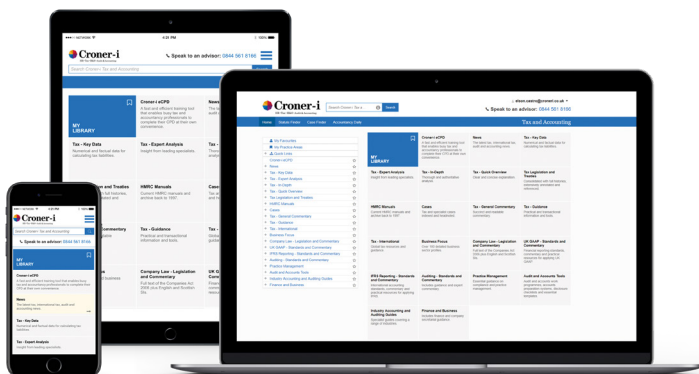

- Auditing Standards & Implementation best practice guidance
- Audit work programmes for companies, charities, clubs, academies etc
- Compliance manuals for money laundering, audit documentation, solicitor's rules etc
- Industry auditing guides

All your content is delivered through the industry leading Croner-i Tax and Accounting platform. This cutting-edge platform is designed so the end users spend less time searching for content and more time interacting with it and using it for research and reporting.
