# Croner-i Health & Safety

Successful businesses understand how important it is to keep their staff and working environments safe. But with a huge amount of constantly changing regulations and laws, it can be difficult to ensure compliance. Croner-i Health & Safety is here to help. Our service provides instant access to all the information and resources needed to stay compliant, with clear, practical advice and tools to maintain a safe workplace.

## Croner-i does the hard work for you

Croner-i Health & Safety gives you straightforward advice and guidance on the right legislation and best practice, all in one place. Updated daily, our information is supported by full commentary and practical steps to take, along with a weekly email round-up of industry news, new legislation, and features on hot topics.

## Tools to help get things done

Model policies, forms, and checklists help you manage your risk assessments, audits, and accident reporting. Then, for times when you need a little more advice, our free telephone helpline provides that extra support.

## Training

To help meet all your legal obligations for health and safety training, Croner-i includes ready to run, highly effective training modules – covering everything from fire and emergency procedures to stress management.

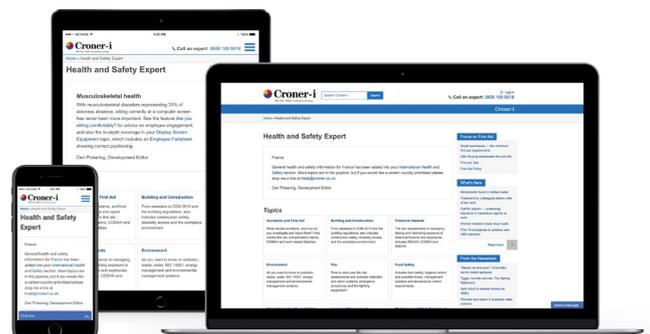

## KEY FEATURES

- ✓ The latest health and safety legislation and ACOPS
- ✓ Full text of key acts and regulations, HSE guidance and selected British Standards
- ✓ Topics covered in summary and in depth with news and feature articles
- ✓ 'How To' guides and briefings on key issues
- ✓ Ready-to-use audit forms, model policies and checklists
- ✓ Legal Register to help keep track of compliance
- ✓ Weekly email alerts on health and safety news and what's new
- ✓ Telephone helpline for additional support
- ✓ Ready-made PowerPoint training modules on key topics

*"The Croner-i Legal Register saves me so much time in compiling the list of laws I need to be compliant to – Also, the ability to write notes and give legislation a compliance status is extremely useful – I can't recommend this tool highly enough!"*

– Karen Barnard, UK Health and Safety Manager at Lucy Electric (November 2017) –

- ✓ Accident & Disease Reporting
- ✓ Health and Safety Audit
- ✓ Legislation Tracker
- ✓ Annotations (add your own notes)
- ✓ Green Office Audit

*"I have had the pleasure of using the Croner-i system for a number of years in two different applications, one in the hotel spa industry and one in social housing. During this time, I have found the system and its many features first class, and the information and resources contained on the website to be excellent.*

*My favourite feature remains the news function each day you log in, with breaking news and subjects shown so you can read them and keep your knowledge current.*

*The system has many features covering a multitude of subject materials, it caters for both your quick subject checks right up to full category reviews. I would recommend this product without any hesitation"*

- Darren Corke, Health & Safety Officer, Derwent Living -

## Ready Made Training Courses

These ready-made courses aim to help those responsible for organising and delivering H&S training by providing a resource for effective in-house training.

The training modules have the following structure and are ready for the trainer to deliver (following the addition of any extra information relevant to your particular organisation).

- Planner: An overview of the module, outlining the content in units, estimated duration, training objectives, and resources to use.
- Objectives: Each module lists the outcome objectives for trainees, whether they're managers or employees.
- Trainer's Notes: General instructions for the trainer on how to deliver the material, including which resources to use and when.
- Slides: To be shown during the training, as indicated in the Trainer's Notes.
- Activities: Including role-plays, quizzes, and ice-breaking exercises to help get trainees to grips with the material.
- Handouts: Summaries of the course content, to distribute to trainees as indicated in the Trainer's Notes.

### COURSES

✓ Confined Spaces	✓ Managers' Stress Management
✓ COSHH	✓ Manual Handling
✓ Display Screen Equipment	✓ Noise
✓ DSEAR	✓ Risk Assessment
✓ Electricity	✓ Slips, Trips and Falls

*"I am always delighted with the response of the health, safety and environmental advisors. Their knowledge and expertise is first class and I can't praise them highly enough. They have assisted me on many occasions."*

- QHSE Manager, Transport Engineering Company -

### HIGH QUALITY ADVICE AND GUIDANCE WHENEVER YOU NEED IT

"Derwent Living Group is a 'profit for social purpose' organisation providing affordable housing. It manages a portfolio of 25,000+ properties, and the safety and wellbeing of its tenants and employees is a top priority.

As the Group Health and Safety Manager, Darren Corke is responsible for keeping key staff up to date with guidance on a vast array of health and safety topics. That includes everything from fire safety management through to accident investigation, equipment maintenance, training, and even gas safety.

Darren says: "I am based away from the office and questions come to me at all times of the day. My key challenge is being able to offer advice on a wide range of topics, no matter where I am in the country."

Accessible from anywhere, Croner-i Health & Safety gives HS practitioners like Darren one-click access to the latest legislative updates and HSE guidance documents on the go, wherever he is. As well as that, it flags important changes with daily sector news and topical features.

Darren can also use downloadable forms, checklists, and model policies to simplify his accident reporting, manage risk assessments, and perform audits. Plus, if he ever needs extra guidance, there's a free telephone helpline to call. He says: "Croner-i gives me the ability to access the high quality advice and guidance whenever I need it. The system is easy to navigate and works on multiple platforms meaning that no matter where I am, I can still get the information I need."
