## Croner-i Small Firm

It's tough for small tax and accounting firms to compete without the backing of a larger company – but Croner-i can offer you the support you need. Whether you're focused on accounting, audit, tax advice, or a bit of everything, Croner-i Small Firm gives you a range of commentary and resources in a simple online service. Designed specially with small practices in mind, these packages contain source materials, detailed expert guidance, tools for managing your practice, and more. It's a concise service with everything in one easy-to-access place, and up-to-date information to help give your clients the best advice.

### All in one place

Get all the resources you need in a single, comprehensive online portal. Login to Croner-i and you'll see everything from legislation and cases to transactional and in-depth tax commentary, interactive tools, and more, fully indexed and easy to find. Whether it's tax, or even HR or health and safety guidance you need, it's all just a click away.

### Up-to-date expertise

Every single guide, commentary, and resource in Croner-i is kept fully up-to-date with the latest legislation and standards. You can be assured that the information you're reading is correct and relevant every time. Plus, with our CPD tracker, you can count your reading towards your CPD.

### Easy to use

Croner-i is packed with functionalities that make finding, using, and saving the information you need simple. Guidance and analysis is easy to digest, navigation is straightforward, and search tools, including the unique Statute Finder, locate what you need in an instant.

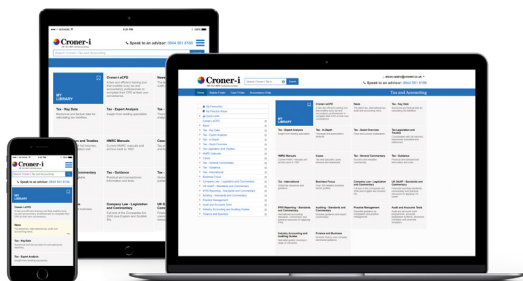

### Extra support

With all the source materials and commentary you need right at your fingertips – along with the search function and personalised annotations system – finding, interpreting, and using information is a breeze. That means less time finding resources, and more time advising clients and putting plans into action.
